

## **Buffalo Model Boat Club**

### **\*\*All Sail**

All sail boat classes are welcome to enjoy the fun for this event. All vessels will start at the same time and will have to complete one “class designated” lap.

- a. Footy’s and DF65’s will complete only ½ lap consisting of the start line, the windward buoy and the finish line.
- b. All other vessels will complete the standard regatta distance of one “lap” to be determined by the Regatta Director.

Individual classes will be scored and the event will last as long as participants wish. For vessels that do not conform to a standard AMYA recognized class or may be the only boat of a certain class to participate on that day, the Regatta Director will decide which class they will compete against. In such cases, the skipper will generally be asked to “sail up” against the next largest class of boats participating. For example, a 36” long boat may be asked to compete as part of the 1M class.
